# Chandan Gaharwar

Full-Stack Developer

+91 6263408860 | chandanck1998@gmail.com | linkedin.com/in/chandanck1998 | Raipur, Chhattisgarh, India

## Summary

Full-stack developer with 5+ years of experience building and shipping web platforms with Laravel, Node.js and React. Currently the sole developer at a startup, owning architecture, development, deployment and server maintenance end to end. Integrates LLM APIs (Claude, Gemini, OpenAI) and experience with open-weight models (Ollama, llama.cpp, OpenRouter).

## Experience

**Clixahub Pvt. Ltd.** Jun 2025 – Present
*Senior Software Engineer (Sole Developer)* *Raipur, India (Remote)*

- Sole developer across the company's product suite, working directly with the founder: designed, built and shipped AutoCRM, Dhanlaxmi, RishteyDekhe and RishteyMilan, and improved several existing projects.
- Built a new React single-page application and AI-powered auto-complete using AI APIs.
- Built an in-house real-time chat system that replaced a paid third-party service, saving about INR 1.5L per year.
- Own server setup, deployments and maintenance for all production systems.
- Identified and fixed a major security vulnerability in the PHP backend and production environment.
- Resolved 100+ bugs and production issues across the platform.

**Symentix Technologies Pvt. Ltd.** Apr 2023 – May 2025
*Software Engineer* *Jaipur, India (Remote)*

- Built and maintained REST APIs in Node.js as a backend developer on a remote team.
- Integrated Firebase Cloud Messaging for push notifications and the Twilio Conversations API for messaging features.
- Integrated OpenAI APIs and vector databases to power AI-driven features.

**Clixahub Pvt. Ltd.** Mar 2022 – Mar 2023
*Junior to Senior Software Engineer* *Raipur, India (Remote)*

- Promoted from Junior to Senior Software Engineer within six months.
- Led the transition of products from Core PHP to Laravel.
- Developed and maintained web applications, including e-commerce platforms, and contributed to internal CRM and ERP systems.

**GoDigital Pvt. Ltd.** Jun 2021 – Feb 2022
*Web Developer* *Raipur, India (On-site)*

- Designed and developed responsive, interactive web applications.
- Managed backend systems in Core PHP and CMS platforms such as WordPress, working directly with clients on customised solutions.

## Technical Skills

**Languages**: PHP, JavaScript, TypeScript, SQL
**Backend**: Laravel, Node.js, Core PHP, REST APIs, JWT, MVC
**Frontend**: React (Basic), HTML, SCSS, Bootstrap
**Databases**: MySQL, PostgreSQL, MongoDB, vector databases
**LLM APIs**: Claude, Gemini, OpenAI, OpenRouter, LangChain, RAG, prompt engineering
**Open-Weight LLMs**: Ollama, llama.cpp (local and self-hosted inference)
**LLM Cost Optimization**: model routing, response caching, prompt caching, token budgeting
**Cloud & DevOps**: AWS (IAM, S3), Docker, GitHub Actions, server setup & deployment, Git, GitHub
**Integrations**: Firebase Cloud Messaging, Twilio Conversations API, Razorpay, Stripe

## Education

**Kalinga University** Raipur, India
*Bachelor of Computer Applications (BCA)* *2016 – 2019*

**WAP Institute** Muzaffarpur, Bihar, India
*Advanced Diploma in Software Engineering* *2019 – 2023*
